### **CITY SEEKS COMMUNITY PARTICIPATION IN SURVEY** **ON POLICE SERVICES AND PUBLIC SAFETY ISSUES**

November 1, 2016...San Clemente, CA...The City of San Clemente has hired a consulting firm, the Matrix Consulting Group, to develop a Police Services Study to help the City evaluate the current delivery of these services by the Orange County Sheriff's Department. As part of this study, the Matrix Consulting Group conducted a Town Hall Meeting on October 25<sup>th</sup> and obtained input from approximately three dozen citizens who participated. The citizen input will be used to assist the City with making improvements to the Police Services' crime reduction efforts.

In order to obtain additional information from the public, and provide all members of the community with the opportunity to give input on their attitudes toward police services and important public safety issues, Matrix has prepared a questionnaire. The City encourages residents and business owners to complete the questionnaire so that their feedback can be included in the study. The survey is anonymous and individual responses will not be shared with the City. The project team will tabulate the responses and present a summary of our findings. Please complete the confidential survey by no later than November 21, 2016 using the SurveyMonkey link available at <https://www.surveymonkey.com/r/SanClementeStudy>. The City looks forward to the public's participation in this process.

If you have questions, contact Assistant City Manager Erik Sund at (949) 361-8360.
