

TRANSPORTATION UPDATE: PICO BRIDGE CONSTRUCTION

November 29, 2016

Pile driving for the rest of the future new bridge section at Avenida Pico is scheduled to start Wednesday, November 30th and will continue until the end of December.

There will be occasional night time closures of the northbound on- and/or off-ramps at Pico, but Pico itself should remain open. The night closures are for staging activities, the actual pile driving will be during the day (generally 7:00 a.m. to 4:00 p.m.). Pile driving the week of December 19th will be from 1:00 to 9:00 p.m.

More details about closures will be provided as they become available.
