

Week of Sunday, Feb. 19, 2017

## CONSTRUCTION HIGHLIGHTS

**Nighttime Pico Closures:** Crews are set to close Avenida Pico at night later this month to begin removing the falsework beneath the Pico bridge. Falsework is the structure made from wood and steel beams that temporarily supports a new bridge after the concrete is poured.

It will take crews about two weeks to remove the existing falsework, and up to four more weeks to set it up for the new bridge concrete pours.

During that **nighttime** work, for the safety of the crews and the traveling public, Avenida Pico will be completely closed under the freeway. The northbound I-5 off- and on-ramps also will be closed during this time.

**WHAT:** Falsework removal and setup. Requires full closure of Avenida Pico at I-5 and the northbound off- and on-ramps.

**WHEN:** Nighttime closures beginning Monday, Feb. 27 for up to six weeks. Details will be provided once exact closure times are available.

*Please be advised, dates and times are subject to change if there is inclement weather or if there are unforeseen operational factors.*
