ANIMAL ADOPTION CRITERIA

Please review our adoption criteria before submitting your application!

Welcome to the San Clemente-Dana Point Animal Shelter!

- An application must be submitted prior to an interaction with one of our animals. This offers us the opportunity to start you in the right direction in looking for a new pet.
- We may take multiple applications on the animals, and do not disclose the number of applications currently on file.
- **Our adoption process is not first-come, first-served.** The supervisory staff reviews all applications and makes a decision that they feel is the best placement for both the animal's and the applicant's needs.
- The timeline for the application process on each animal can be different. We do our best to accommodate each applicant's requirement for interactions, **however, an adoption approval may be made as soon as we have an applicant that meets the animal's adoption criteria and completes all required interactions.**
- All household members must interact with the animal. We do this to ensure that all family members, and the animal you're interested in, are a match.
- (Dog adoptions only) All dogs in the household will need to come in to interact as well.
  If the dog will be frequently interacting with other dogs (owned by family members, friends, etc.) we recommend they come in to interact as well, to ensure a successful adoption.

This animal's available date is scheduled to be: _____

Please contact the shelter on this day for further information on the pet's availability for interactions. An animal's available date can change at any time due to the outcome of their behavior and medical evaluations.
