

**AGENDA FOR THE REGULAR MEETING
OF THE COASTAL ADVISORY COMMITTEE
FOR THE CITY OF SAN CLEMENTE, CALIFORNIA**

**San Clemente Community Center
Ole Hanson Fireside Room
100 North Calle Seville
San Clemente, California**

**June 12, 2014
7:00 p.m.**

RULES FOR ADDRESSING THE COMMITTEE

Members of the audience who wish to address the Committee are requested to limit discussions or questions to three minutes.

Please note: Written material distributed to the Coastal Advisory Committee, after the original agenda packet was distributed, is available for public inspection in the Environmental Programs office located at 910 Calle Negocio, San Clemente, during normal business hours.

- 1. PLEDGE OF ALLEGIANCE**
- 2. ROLL CALL**
- 3. APPROVAL OF MINUTES**
 - A. May 8, 2014**

Members of the audience who wish to address the Committee on matters of public interest pertaining to the City may step to the podium, state their name and the City in which they reside, and make their presentation. Please limit presentations to three minutes. Since the Committee cannot discuss or take action on matters not on the agenda, items of concern which are not urgent in nature can be resolved more expeditiously by completing and submitting a written request to the Engineering Division, Environmental Programs Section.

For matters on the agenda, public comments will be received at the time that the Coastal Advisory Committee considers the agenda item.

4. PUBLIC INPUT

Pursuant to the Americans with Disabilities Act, persons with a disability who require a disability-related modification or accommodation in order to participate in a meeting, including auxiliary aids or services, may request such modification or accommodation from the Environmental Programs Assistant at (949) 361-6143. Notification 24 hours prior to the meeting will enable the City to make reasonable arrangements to assure accessibility to the meeting.

5. OLD BUSINESS – None.

6. NEW BUSINESS

A. The Road to Local Coastal Program Certification

A memo by Jim Pechous, City Planner, with an update on the Local Coastal Program (LCP) Certification process.

Staff Recommendation: Information and discussion item

B. Stingray Incident Report

A memo by Mary Vondrak, Senior Management Analyst, with an update on stingray incidences reported at San Clemente beaches.

Staff Recommendation: Information and discussion item

7. COMMUNICATIONS

A. Bacteriological Monitoring Report – Date of Posted Report 6/4/14

Information item – Receive and File

B. May 2014 Environmental Programs Update

A summary of recent activities conducted by the City related to runoff/surface water quality and solid waste/recycling.

Information item – Receive and File

8. ITEMS FROM STAFF

A. Potential Future Agenda Items

A memo by Mary Vondrak, Senior Management Analyst, on scheduling of potential future Coastal Advisory Committee agenda items.

Staff Recommendation: Information and Discussion Item.

9. ITEMS FROM COMMITTEE MEMBERS

10. ADJOURNMENT

Adjourn the meeting to the next regular meeting of the Coastal Advisory Committee on Thursday, July 10, 2014 at 7:00 P.M., in the Fireside Room, at the Community Center, 100 N. Seville, San Clemente, California.

**MINUTES
CITY OF SAN CLEMENTE
REGULAR COASTAL ADVISORY COMMITTEE MEETING**

Thursday, April 10, 2014 @ 7:00 p.m.
Community Center, Ole Hanson Fireside Room
100 N. Seville, San Clemente, CA 92672

1. CALL TO ORDER/ PLEDGE OF ALLEGIANCE

Chair Hart called the meeting to order at 7:00 p.m. Committee Member Ambrose led the Pledge of Allegiance.

2. ROLL CALL

Present: Susan Ambrose, Don Brown, Richard Dickey, Ken Nielsen, and Michael Smith; Chairman Bill Hart

Absent: Chair pro tem Peter Salgado

Staff Present: Mary Vondrak, Senior Management Analyst
Eileen White, Recording Secretary

3. APPROVAL OF MINUTES

A. Minutes of the Regular CAC Meeting of March 13, 2014

IT WAS MOVED BY COMMITTEE MEMBER BROWN, SECONDED BY COMMITTEE MEMBER AMBROSE, AND CARRIED 5-0-1, WITH COMMITTEE MEMBER NIELSEN ABSTAINING, to receive and file the minutes of the regular meeting of March 13, 2014, with the following revisions:

Page 2, after the 1st paragraph, insert the following paragraph: "Committee Member Ambrose suggested that now is the time to ask questions because the topic is agendaized for discussion at the meeting. Committee Member Smith responded that he is not ready to discuss his entire list of questions because there are so many of them."

Page 2, 3rd paragraph, 1st sentence, following "stated that" insert "he did not want to put his questions in writing and"

Page 2, last paragraph, add to the end of the 1st sentence, "only if one was warranted." Last sentence, replace "opinions available" with "opinions, past discussions, and staff reports available."

5. **PUBLIC INPUT** – None

6. **OLD BUSINESS** - None

7. **NEW BUSINESS**

A. Sand Replenishment Update

Mary Vondrak, Senior Management Analyst, reviewed Tom Bonigut, Assistant City Engineer's staff report, an update on the Beach Sand Replenishment Project, including a brief summary of the proposed project, current status and anticipated next steps, and funding overview. Staff recommended the Committee hear the report and provide input.

In response to questions from the Committee Members, Senior Management Analyst Vondrak confirmed that the City has the option to opt out of the project after completion of any of the designated phases; informed that the City is not locked into a location for the sand source.

Committee Member Nielsen commented that the quality of the sand available in Oceanside must not be acceptable because Oceanside imported sand from Del Mar for its sand replenishment project; speculated if the quality of excess sand in Dana Point is high, the City of Dana Point may want to keep it for its own projects. He established for the record that the City is not locked in or obligated to use sand in the City of Oceanside as its sand source.

Commissioner Brown reported that he attended the budget planning session, where several Councilmembers expressed concern about the amount of funds necessary from the City for this project and speculated that public support in the way of bonds or increased taxes may be necessary to fund the project.

Report received and filed.

B. Update on Plastic Bag Ban

Senior Management Analyst Vondrak reviewed the staff report, an update on single-use plastic grocery bag bans across California including histories of bans, a listing of California cities and counties with current single-use plastic grocery bag ordinances, and an update on State Legislation that would phase out single-use plastic grocery bags statewide. Staff recommended the Committee provide input and receive and file the staff report.

Committee Member Ambrose commented that she distributes reusable bags provided by the City while shopping and at the City Council meeting and noted that people have been very supportive. There are two types of bags and they are sturdy and easy to clean.

Committee Member Nielsen reported that he spent time in a diverse area of San Pedro and spoke to many people who expressed favor of the ban in effect there, especially as it keeps single use bags from entering the ocean. For the record, he commented that he is ashamed of San Clemente for not supporting this growing trend.

Chair Hart stated that the majority of people in the 105 California cities and counties with plastic bag ordinances have adjusted and/or embraced their respective plastic bag bans.

Report received and filed.

C. Update on Clean Ocean Marketing Campaign

Senior Management Analyst Vondrak narrated a PowerPoint Presentation entitled, "Clean Ocean Outreach, Fiscal Year 2014 Update, dated April 10, 2014." She reviewed current and proposed advertising strategies; advised she is in the process of placing advertising in The Sun Post; displayed web banners and web pages; indicated links for additional information and/or alerts; discussed website visits and click-through statistics; displayed the revised pledge form. In addition, she reviewed the County wide spokesperson email campaign program and reviewed the landscape rebate statistics.

In response to comments/questions from the Committee Members, Senior Management Analyst Vondrak agreed to forward a recommendation from the Committee that staff work with Laura Ferguson to arrange for a press release to provide information on the program and provide average rebate fund amounts to illustrate the cost effectiveness of the program; advised additional information on the program will be made available when the City's website is updated; noted that staff is monitoring the results of the marketing campaign, and will publish the results closer to the end of the year.

In response to a suggestion from Committee Member Ambrose, Senior Management Analyst Vondrak agreed to offer pledge forms for distribution at Casa Romantica.

Committee Member Smith suggested staff consider designing and issuing an inexpensive decal or gnome sticker for residents' houses or cars that indicate support of the program in return for turning in the signed pledges. Senior Management Analyst Vondrak agreed to research potential and report back.

Report received and filed.

8. **COMMUNICATIONS**

A. Bacterial Monitoring Report Dated April 1, 2014

B. March 2014 Environmental Programs Update

Committee Members received and filed items 7A and 7B.

Senior Management Analyst Vondrak invited all to attend upcoming meetings and public outreach events including CA Friendly G3 Landscape Classes and H2O for HOAs workshop; commented the Storm Drain Maintenance Program and Street Sweeping reporting had been updated in response to request from Committee Member Brown.

Committee Member Ambrose suggested that staff consider coordinating and providing pledge forms with its grant awards, summer activities/classes, and community events. Returning a signed pledge form could be considered credit for classes, including those at the high school and through ASB.

9. ITEMS FROM STAFF

A. Potential Future Agenda Items

Mary Vondrak, Senior Management Analyst reviewed the Potential Future Agenda Items and requested the Committee Members provide input. Committee Members added Environmental Purchasing Policy and AB411 Bacteria Monitoring Update to the July agenda.

Report received and filed.

B. Staff Announcements

Senior Management Analyst Vondrak

10. ITEMS FROM COMMITTEE MEMBERS

Committee Member Smith reported that at the most recent Beaches, Parks and Recreation Commission meeting, the Commission reviewed financial issues associated with the Beaches, Parks, and Recreation Foundation; discussed a Marine Safety Building study to consider relocation due to erosion; invited all to attend a CARE (formerly Tribute Program) Subcommittee meeting at 7:00 p.m. on April 29 in the Ole Hanson Fireside Room at the Community Center.

Committee Member Smith submitted a typewritten list of questions associated with the Poche Beach Action Plan for discussion at a future meeting; requested staff visit and provide input on the existing state of the Poche Pond, which currently resembles a river bisecting the beach; suggested staff consider picking up cobble at Poche Beach at this time because it is currently packed into piles that would be easy to pick up and remove.

Committee Member Ambrose reported that the shredding event was very successful and helpful to the community at large.

Committee Member Brown reported that at their last study session, the Planning Commission heard a presentation on the Local Coastal Program.

Committee Member Nielsen commented that although San Pedro is very forward thinking with its single-use plastic bag ban, he was shocked to receive restaurant leftovers in a Styrofoam container, and suggested the CAC/staff consider writing the City of San Pedro a letter encouraging a Styrofoam ban; commented that monies spent monitoring the Wheeler Reef are in vain as he considers it doubtful that it will ever meet the standard stock of fish required, although the kelp is doing great.

Chair Hart credited Lisa Kerr and the high school program for providing volunteers, high energy, and support at the beach clean ups; invited all to attend Earth Day festivities on April 26; invited the Committee Members to man the City's booth, wear their identification badges, and share information with the public at the event.

Chair Hart thanked Committee Member Smith for providing the list of typewritten questions regarding the Poche Beach Action Plan and stated that he and Senior Management Analyst Vondrak would review the list, contact him for questions or comments.

Senior Management Analyst Vondrak encouraged all to call her to schedule a volunteer shift at the City's booth, or just show up between 10:00 a.m. to 2:00 p.m. In addition, she invited all to attend the H2O for HOAs meeting on April 29 at 8:30 a.m. at the San Juan Capistrano Community Center and noted that all homeowners associations have been invited and many have expressed interest in attending. Chair Hart suggested she contact Lew Avera as he is very involved with Talega Homeowners Association and Committee Member Ambrose agreed to follow up with the homeowners association in her neighborhood.

11. ADJOURNMENT

MOVED BY COMMITTEE MEMBER BROWN, SECONDED BY COMMITTEE MEMBER SMITH, AND UNANIMOUSLY CARRIED to adjourn at 8:39 p.m. to the Regular Meeting for the Coastal Advisory Committee to be held on Thursday, May 8, 2014, at 7:00 p.m. in the Fireside Room, at the Community Center, 100 N. Seville, San Clemente, California.

Respectfully submitted,

Bill Hart, Chair

Attest:

Mary Vondrak, Senior Management Analyst

DRAFT

Memorandum Planning

Thursday, June 5, 2014

To: Coastal Advisory Committee
 From: James Pechous, City Planner
 Subject: Update on the processing of the Local Coastal Plan
 Copies: John Ciampa, Associate Planner

Background

With the completion of the Centennial General Plan earlier this year the City Council identified certification of the Local Coastal Plan (LCP) as a high priority implementation measure of the General Plan. To assist in this effort the City applied for and was awarded a \$90,000 grant for consultant services to assist in the preparation of the LCP. In April, 2014 the City Council approved a contract with Dudek and McCabe and Associates to assist staff in preparation of the LCP. Last week staff, with our consultant team, met with Coastal Commission staff to discuss the project scope and identify key topics Coastal Commission will require be included in the plan. A summary of that meeting is attached for your review. Regular monthly meetings have been scheduled that will alternate between City and the Long Beach Coastal Commission office. The table below provides a list of task and the project schedule.

Activity	Begin Date; End Date
Task 1. Pre-Grant Planning	9/15/13-3/31/14
1.1. Prepare and distribute RFP	<i>December 11, 2013</i>
1.2. LCP Grant Award announced	<i>January 23, 2014</i>
1.3. Select consultant	<i>March 18, 2014</i>
1.4. Execute Grant funding contract	<i>February 28</i>
1.5. Approve consultant workscope and contract/issue start work notice	<i>March 31</i>
Task 2. Biological Inventory/GIS Mapping	4/14/14-7/31/14
2.1 Conduct biological inventory/analysis	<i>April 14-June 30</i>
2.2. GIS input and mapping	<i>June 16-July 31</i>

Task 3. Preliminary Public Outreach	3/31/14 – 5/30/14
3.1. Publicize LCP update in local newspapers; conduct public outreach meetings with Coastal Advisory Committee	<i>March 31 through May 30</i>
Task 4. Update LCP/LUP	4/30/14 -12/31/14
4.1. Peer review of draft LUP	<i>March 31 - April 30</i>
4.2. Revise/supplement draft LUP as needed; prepare prelim. draft, graphics, and environmental review.	<i>May 15 - 30</i>
4.3. Planning Commission/City Council/public review	<i>June 17 through August 19</i>
4.4. Revise draft, add final graphics; submit draft to CCC	<i>August 20 - September 11</i>
4.5. CCC review and LUP revisions	<i>September 15 - December 31, 2014</i>
Task 5. Prepare LCP/IP	5/15/14 -5/15/15
5.1. Peer review of draft IP	<i>May 15 - June 15, 2015</i>
5.2. Revise/supplement draft IP as needed; prepare preliminary draft, graphics, and environmental review.	<i>June 15 through September 15, 2015</i>
5.3. Planning Commission/City Council/public review	<i>October 1 through December 18, 2015</i>
5.4. Revise draft, add final graphics; submit draft to CCC	<i>December 19 - January 30, 2015</i>
5.5. CCC review and IP revisions	<i>February 2 – May 4, 2015</i>
Task 6. CCC Review/Certification	5/5/15 – 4/30/16
6.1. Revise LUP/IP as needed; take final draft LCP to City Council for approval	<i>May 5 through July 31, 2015</i>
6.2. Submit final draft LCP to CCC	<i>By August 31, 2015</i>
6.3. CCC certifies LCP	<i>By February 29, 2016</i>
6.4. City posts certified LCP on website; distribute training materials; conducts public/staff training workshops	<i>March 1 - April 30, 2016</i>
6.5. Close out LCP Grant; provide final documentation to CCC as needed.	<i>By April 30, 2016</i>
6.6. Begin Implementing certified LCP	<i>By April 30, 2016</i>

Purpose of Tonight's Meeting

Staff will brief the Coastal Advisory Committee on the schedule, scope of work, and key issues that will need to be addressed in the LCP. Finally we would like CAC feedback on the role of CAC at the LCP public workshop tentatively planned for the second week in August.

6.A. - Attachment

LCP Kick-Off Meeting with the Coastal Commission Notes 5/30/2014

- 1) The California Coastal Commission (CCC) expressed a desire for the City to have public workshops tentatively scheduled for August 2014
- 2) DUDEK's process for the Bio review of the Coastal Canyons will be aerial photos, GIS resources, field inspections, and General Plan documents.
 - i. They will identify ESHAs
 - ii. Work with City Staff to identify easements for access to survey biology in canyons.
 - iii. DUDEK will be reviewing the methodology of the Biology review with the CCC based on the access restrictions to ensure it is adequate.
- 3) Marblehead Coastal
 - i. If incorporated into the LCP the project review would transition to San Clemente. The City would ensure compliance with the conditions of the CDP.
 - ii. Want to also keep/allow CCC enforcement
- 4) Marine Safety and other Beach Improvements
 - i. City needs policies on how to deal with beach improvements.
 - ii. City needs to evaluate sea level rise. The study should be incorporated into policies.
 - a. What adaptation should be done when issues arise?
 - b. No shoreline armoring walls.
 - iii. Since the City is mostly bluffs there should be more policies on bluff preservation.
 - iv. Existing nonconforming policies need to be developed consistent with the coastal act.
 - v. Develop policies for outfalls/drains to the beach.
 - a. Identify why and where they are located
 - vi. Document the City's water quality measures
- 5) Low Cost Accommodations
 - i. Protect existing and encourage new.
 - ii. There is nothing in the new GP about low cost accommodations. Most of the City's accommodations are just outside the coastal zone.
 - iii. Areas should be set aside as tourist serving. Residential should be prohibited unless it is on the second level (Existing Mixed Use)
 - iv. An inventory of all overnight accommodations and vacation rentals should be provided including State Park Campground.
 - v. New accommodations should be affordable, to the extent possible
 - vi. Identify Del Mar as visitor serving
- 6) Shorecliffs Golf Course Land Use Change
 - i. Land Use change complies with the goals of the Housing Element
 - ii. Possible issue with removing visitor serving uses since location was previously designated as a hotel.

- iii. Possible option would be to relocate a hotel land use to the North Beach area since it is a transforming area and closer to the ocean.
 - a. Get a comparison difference of the acreage between the two properties.
 - iv. Provide information on the uses in NB, APN map, and Focus Area information from the GP
 - v. Possible renaming or characterizing the zoning.
- 7) Categorical Exclusion Area
 - i. City needs to apply with a new Categorical Exclusion Order after the new LCP is approved.
 - ii. City wants to maintain the current setback standard for coastal Bluffs and Canyons
 - iii. City does not want to increase the level of review for projects
 - iv. How would permit processing work when the City takes over those duties.
- 8) Water Quality
 - i. CCC provided updated information and guides for water quality standards
 - ii. Send Draft of this section early to see if it is in compliance with CCC standards
 - a. Water quality documents include NPDES permit, Water Quality Ord, technical guide, Comprehensive Load Reduction Plan, water quality in General Plan.
 - iii. Goal is to surgically put in what is need by the CCC (start with the basics)
 - a. Use section 3 of the Coastal Guide as a reference
- 9) Policies that should be included in the LCP
 - i. Smart Growth and mobility
 - a. Intensification and transportation nodes
 - ii. Coastal viewpoints and access.
 - a. Special consideration with prescriptive rights access to the beach
 - iii. Formalize coastal required access for past projects to include in the access section of the LCP.
- 10) Beach Curfews
 - i. CDP required for beach curfews. Curfews are not allowed seaward of the mean high tide line.
 - a. If there are any existing curfews, when were they enacted?
- 11) Fire Pits
 - i. Supported by the CCC and should be included in the LCP. They provided low cost visitor serving amenities.
- 12) Special Events
 - i. Policy should be developed that the beach is for public and private use would require a CDP.
 - ii. Exclusive uses like Surf Schools should trigger a CDP
 - iii. Policies should be developed identifying what should be encouraged and discouraged.

13) Sand Replenishment

- i. Need policies for opportunistic sand replenishment

14) Beach Management

- i. Policies for grooming and removal of ocean debris
- ii. Provide the Beach Ecology Policy from BP&R

15) Watersheds

- i. Map and identify blue line streams and riparian corridors.
- ii. Incorporate the water quality code and other standards/requirements

Other issues

- 1) Address properties that appear to be bisected by the coastal zone
- 2) Get coastal boundary map at a parcel level
- 3) Establish monthly meetings
- 4) Provide maps of the appealable areas

Memorandum Engineering

Wednesday, June 04, 2014

To: Coastal Advisory Committee (CAC)
From: Mary Vondrak, Senior Management Analyst
Subject: Stingray Incident Report
Copies: Bill Humphreys, Marine Safety Chief

This informational item is presented to the Coastal Advisory Committee on the observance of stingray incidences found at San Clemente beaches. Recent news of increased stingray occurrences in North Orange County prompted investigation into the species population at San Clemente's City beach. This transmittal gives a brief background and history of the species and summarizes the trends seen by the City lifeguard staff versus areas in the northern part of Orange County.

The California round ray is a small species of ray that populates the intertidal zone of areas along the California and Mexico pacific shoreline. The area around Seal Beach has been historically known to have the most concentrated population of round rays on the Pacific Ocean's east coast. Round rays prefer sandy or muddy bottoms, but are occasionally found in rocky reef areas. They commonly congregate in greater numbers at estuary mouths and shallow bays where water is warmer.¹ Ray populations can be affected by numerous variables which include water temperature, swell and wave intensity, food source and breeding season. Stingrays prefer warm water, smaller waves, and a consistent food source.

Stingrays have a long barb on the end of their tail that can deliver painful venom. They are not aggressive and will only strike when threatened. Most accidents occur in shallow water when they are accidentally stepped on. Effective treatment for a stingray incident involves immersion of the affected area in hot water, monitoring the wound for signs or symptoms of an infection, and occasionally, the need for medication for pain management. Marine Safety Headquarters will treat those affected onsite, only occasionally calling for more advanced medical care when needed. Recreational beach users can reduce the chances of being stung by shuffling their feet when in contact with sand in shallow water. This act is

¹ Source: http://www.aquariumofpacific.org/onlinelearningcenter/species/round_stingray

commonly known as the “sting ray shuffle” and serves to scare stingrays away before being stepped on.

According to an OC Register news article published on January 29, 2014, lifeguards at Bolsa Chica State Beach and Huntington City Beach reported large numbers of stingray incidences in 2013. Bolsa Chica saw as many as 1,500 cases of stingray injuries and Huntington City had 653. This is in contrast to Seal Beach where cases dropped in 2013 to 350. In previous years they averaged 500. San Clemente saw a decline in incidences in 2013. The below table summarizes the number of people that reported an incident over the last three years at four different beaches.²

Year	City of San Clemente	Seal Beach	Bolsa Chica State Beach	Huntington City
2011	47	519	Unknown	253
2012	72	434	900	471
2013	37	350	1500	653

The data presented here indicates that there is no upward trend or increase in stingray incidences reported to the City of San Clemente’s Marine Safety department. Several variables could be responsible for the increase in the incidences seen in northern Orange County which include warmer water temperatures, smaller swells over those periods, increases in recreational users, or preferred habitat.

As mentioned earlier, always shuffle your feet when walking on sandy bottoms to reduce the chances of being stung. If stung, seek immediate assistance from the lifeguards, or if they are not available, go home and soak the affected area in water that is as hot as you can tolerate for 30 to 90 minutes - or until the pain is reduced and does not increase when removing the area from the water. If the pain is excruciating or you have any difficulty breathing, seek advanced medical assistance immediately. Once the pain has subsided, clean and disinfect the area with a medically approved topical antibiotic and watch for any signs of infection. If signs or symptoms of an infection begin to appear, seek medical attention immediately.
