

Memorandum Engineering Division

December 18, 2013

To: Planning Commission
From: Tom Frank, Transportation Engineering Manager *TF*
Subject: **Funding a Crossing Guard for Avenida Calafia at Avenida Del Presidente and an Additional Crossing Guard for Avenida Talega at Calle Portofino**
Copies: William E. Cameron, City Engineer
Tom Bonigut, Assistant City Engineer
Joseph McClintock, Police Administrative Sergeant

ISSUE:

Should the Planning Commission recommend to City Council to approve a supplemental appropriation to provide budget for a crossing guard at Avenida Calafia/Avenida Del Presidente and an additional crossing guard at Avenida Talega/Calle Portofino?

BACKGROUND:

Avenida Calafia/Avenida Del Presidente: The Engineering Division received the a petition with over 300 signatures requesting a crossing guard for Avenida Calafia at Avenida Del Presidente. The school children cross in the existing 75 foot crosswalk on the west leg of the 4 –way stop intersection as they go to and from Concordia Elementary School. Petitioners' objective is to "protect our children and provide a safer way for them to cross a major intersection on their way to and from school."

The intersection is depicted in the attached aerial photo. The east leg of the intersection is the on-ramp and off-ramp for the southbound I-5 freeway. Speed limits are 25 miles per hour (mph) on Avenida Calafia and 30 mph on Avenida Del Presidente. Pedestrians and vehicles counts for three days are in the following table:

School-Age Children Crossing Avenida Calafia In the Crosswalk* (Kindergarten thru 6th grade)		
Date	Time	Volume
Wednesday 5/15/13	2 p.m. to 3 p.m.	30
Thursday 5/30/13	2 p.m. to 3 p.m.	36
Thursday 9/19/13	7 a.m. to 8 a.m.	10
*Most of the school children on 5/15/13 & 5/30/13 were riding bicycles. All of the school children on 9/19/13 were riding bicycles.		
Vehicles thru the Avenida Calafia crosswalk (total of right turns + left turns + straight)		
Date	Time	Volume
Wednesday 5/15/13	2 p.m. to 3 p.m.	350
Thursday 5/30/13	2 p.m. to 3 p.m.	313
Thursday 9/19/13	7 a.m. to 3 p.m.	284

The City refers to County of Orange criteria to help determine whether a crossing guard should be recommended at a location. The County of Orange's guidelines require 25 school-age pedestrians (Kindergarten thru 6th grade) crossing during each of two hours in a day, and the crossing must be on a suggested route to school. For a stop-controlled intersection, the criteria includes a warrant that children walk across four vehicle lanes, and 500 conflicting vehicles moving through the crossing during a one-hour period when the children are crossing. Except for the school route, the above criteria are not met for a crossing guard at this intersection. Staff believes, however, that a crossing guard should be considered, in this case, for the following reasons:

- The high number of children crossing during one hour.
- The Avenida Calafia crossing is 75 feet, which is relatively long for a crossing at a Stop-controlled intersection.
- Drivers on the Avenida Calafia approach sometimes separate into two "lanes", thus effectively making it a three-lane crossing instead of a two-lane crossing.
- The intersection is opposite the on- and off-ramps at the I-5 southbound freeway.

Regardless of the crossing guard request, the City will implement the following:

- a. Replace the existing faded, obscured "STOP" pavement legend from the Avenida Calafia approach;
- b. Install a 12-inch white stop line on the Avenida Calafia approach, at 4-feet in advance of the crosswalk;
- c. Replace the five existing 24-inch-wide "STOP" signs with 30-inch-wide "STOP" signs (R1-1) at:
 - i. the three "STOP" signs on the City approaches;
 - ii. the two "STOP" signs on the Caltrans I-5 freeway off-ramp approach (with Caltrans' permission);
- d. Install an "ALL WAY" plate (R1-4) with each "STOP" sign.

The pavement delineation work and signage will be scheduled with the next available project opportunity and should be completed by the end of January 2014.

Avenida Vista Hermosa/Calle Portofino: The Engineering Division received an e-mail from Dr. Troy Hunt, Principal of Vista Del Mar Elementary School, requesting an additional crossing guard for the intersection of Avenida Talega at Calle Portofino. Additionally, a petition was submitted to the City on November 19, 2013 with 148 signatures with the same request. The request is due to concerns for safety of the many school children that cross those streets with the high volumes of vehicles that drive through the crossings. The children cross in the three existing yellow crosswalks on the north leg of Avenida Talega and the east and west legs of Calle Portofino (See Attached aerial photo). Currently, one crossing guard is assigned to assist the children in all three crosswalks. The intersection is controlled by traffic signals. Staff's counts of the children and the conflicting vehicles are in the following tables:

	School-Age Pedestrians in the Crosswalks		
	Date	Time	Volume of School-age Pedestrians
Crossing Avenida Talega (north leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	192
		2 p.m. to 3 p.m.	167
Crossing Calle Portofino (east leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	74
		2 p.m. to 3 p.m.	36
Crossing Calle Portofino (west leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	51
		2 p.m. to 3 p.m.	61

	Conflicting Vehicles Thru the Crosswalks*		
	Date	Time	Volume of cars*
Crosswalk on Avenida Talega (north leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	1
		2 p.m. to 3 p.m.	4
Crosswalk on Calle Portofino (east leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	59
		2 p.m. to 3 p.m.	82
Crosswalk on Calle Portofino (west leg)	THUR, 9/26/13	7:45 a.m. to 8:30 a.m.	192
		2 p.m. to 3 p.m.	124

* These are the vehicles that are moving through the crosswalk at the same time that the children are in the crosswalk. These "conflicting vehicles" are: cars that turn right on a green signal from southbound (SB) Avenida Talega onto WB Calle Portofino, cars that turn right on a red signal from EB Calle Portofino onto SB Avenida Talega, cars that turn right on a green signal from NB Avenida Talega onto EB Calle Portofino, and cars that turn right on a green signal from WB Calle Portofino onto NB Avenida Talega.

Again, the conditions do not meet the County's criteria for an additional crossing guard; however, staff believes that an additional crossing guard should be considered, for the following reasons:

- The high number of children crossing in each of the three crosswalks.
- The Avenida Talega crossing is 80 feet, which is relatively long for a continuous pedestrian crossing without an intermittent protected refuge.

- The extreme traffic congestion at the intersection, caused by the high numbers of cars during the relatively short student drop-off and pick-up times.

Staff observed several other crossing guard locations in the City, to consider whether any of those crossing guards could be relocated to the subject intersections. The existing crossing guard locations include Calle Sarmentoso/school driveway and Camino Vera Cruz/Costa, serving Truman Benedict Elementary/Bernice Ayer Middle School, Avenida Del Poniente/Calle Puente serving Las Palmas Elementary School, and Avenida Vista Hermosa/Camino Faro serving Marblehead Elementary School. Staff recommends that those crossing guards should remain.

Additional Background:

The history of traffic congestion and the need for crossing guards during school drop off and pick up periods is complex and involves school operations. The congestion surrounding the school during the dropping-off and picking-up periods is due to the volume of cars. The volume of cars transporting children during drop-off and pick-up periods drastically increased when the school district (District) terminated most of its bussing from 1990s through 2008. Traffic congestion at the schools will continue unless the peak vehicular traffic volumes are reduced. Several ways to reduce congestion problems related to schools include increasing walking and bicycling to school, and reducing the volume of cars at drop-off and pick up periods through other programs.

The subject of reducing vehicular congestion at schools is a challenging issue to address and staff is actively working with District Staff and the school constituents to address the issues were opportunities exist.

Regarding the history of the City providing crossing guard services, the City started providing crossing guard services in the 1960s. Later, the City's Police Department provided the service through 2004, when the City began contracting with All City Management Services (ACMS). The current ACMS contract amount is approximately \$100,000 for 8 locations, with an anticipated increase in rates matching this year's Consumer Price Index in December.

The annual cost to fund each new crossing guard would be approximately \$10,500. There is currently a \$4000 surplus in the budget; therefore, a supplement appropriation of \$8,600 would be required to fund the crossing guards starting in the beginning of March 2014. If the City Council approves the budget for the requested additional crossing guards, the approximate contract amount would increase to approximately \$127,000 for the 10 locations in the next fiscal year with annual increases tied to the CPI.

Considering the increased congestion caused by the lack of bussing, Staff approached the District to address the long term plan for crossing guards within our City. The District staff explained that the District does not provide any

funding for crossing guards on public streets. The District noted that it is not able to fund crossing guards at this time.

RECOMMENDATION:

STAFF RECOMMENDS THAT the Planning Commission recommend to City Council to approve a supplemental appropriation to provide budget for a crossing guard at Avenida Calafia/Avenida Del Presidente and an additional crossing guard at Avenida Talega/Calle Portofino.

Petition Background (Preamble):

Please help to protect our children and provide a safer way for them to cross a major intersection on their way to and from school.

Petition:

We, the undersigned, call for the City of San Clemente to provide a crossing guard at the intersection of Del Presidente and Calafia to ensure the safety of our children as they ride or walk to Concordia.
