## **Addendum No. 3**

Non Functional Turf Removal and Irrigation Retrofit for Water Conservation  
Project, CITY PROJECT #15104

TO: ALL PLAN HOLDERS

The Bidder shall execute the certification at the end of this Addendum and shall attach the certification to the Contract Documents, Plans and Specifications for the subject project.

Q1 Appendix A shows the requested plant palate for each site, however details of size, spacing and distribution of species (counts or % distribution per each area of which species) for the plants to be installed are not provided. Please provide plant sizes, spacing, percent species distribution (or quantities), and other required information to complete the planting work scope at each site.

A1 All Plant species indicated on Appendix A shall be 1 gallon plants installed at 3'-0" O.C.

Q2 Is maintenance required to be bid as part of this contract? If so for what duration? Also provide pertinent specs and information to bid this work.

A2 There is no maintenance period required for this project.

Q3 Does this project require the contractor to provide landscape design or irrigation design? Will the owner be providing layout of plant materials on site?

A3 This project does not require the contractor to provide landscape or irrigation design drawings. Owner will provide the layout of plant materials on site.

End of Addendum No. 3
