Review of projects for the Fiscal Year 2015-16 Capital Improvement Program for consistency with the San Clemente General Plan.

Adam Atamian, Associate Planner, reviewed the staff report; requested the Commission provide input regarding projects on the 2015-2016 Capital Improvement General Plan Consistency Report; provided information as requested. The item will be brought back to the Commission at a future meeting for further review and action.

Associate Civil Engineer Knatz responded to inquiries; provided an analysis of the recent sewer spill and discussed strategies for recovery.

The Commissioners suggested revisions as follows:

- Page 4, "Camino Del Rio Intersection Improvements:" add wording to clarify that this item includes roundabouts.
- Page 6, "800 MHz Backbone Equipment" and "800 MHz Radio Equipment:" staff to research and report back on why these costs are the City's responsibility rather than the Orange County Sheriff's Department.
- Page 6, "Aquatic Center Swamp Cooler Replacement:" staff to research and report back with details on why the incorrect equipment was installed.
- Page 9, "Major Street Maintenance Program:" staff to research and report back if and/or when the City's alleys will be scheduled for repair or slurry seal.
