ORGANICS RECYCLING PROGRAM

To achieve diverting 75% of solid waste away from the landfill and complying with state regulations (AB 1594), the City of San Clemente launched your organics recycling program.

The organics will be transported to CR&R's Anaerobic Digestion Facility (AD) in Perris, CA. The facility will convert all of the organic (yard and food waste) into fertilizer and renewable natural gas to fuel the collection fleet. This program will keep all of your city's organic waste out of the landfill.
