Subject: *RESOLUTION TO DESIGNATE FISCAL YEAR (FY) 2019-2020 STREET REHABILITATION PROJECTS PURSUANT TO THE STATE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017 (SENATE BILL 1).*

Fiscal Impact: Yes. The proposed resolution formally designates \$1 million in additional SB1 gas tax funds to the planned Camino De Los Mares street rehabilitation project. This project was approved in the FY2019 Capital Improvement Program (CIP), and the proposed FY2020 CIP includes this request for additional gas tax funds for project construction, which is anticipated in early 2020.

Summary: The proposed resolution designates the Camino De Los Mares street rehabilitation project to receive additional SB1 gas tax funds. This resolution is required by SB1 funding requirements.

Background: In April 2017 the Governor signed SB 1 titled "The Road Repair and Accountability Act of 2017" which provides funding to cities and counties for basic road maintenance, rehabilitation, and critical safety projects on the local streets and roads system. SB 1 increases per gallon fuel excise taxes, diesel fuel sales taxes and vehicle registration taxes, and provides inflationary adjustments to fuel tax rates in future years. Collected tax revenue is deposited into a new Road Maintenance and Rehabilitation Account (RMRA), and some of this new RMRA funding is apportioned by formula to eligible cities and counties. It is estimated that San Clemente will receive about \$1.03 million in RMRA funding in FY2020. This revenue estimate has been incorporated into the proposed FY2020 budget.

Discussion: SB1 includes increased transparency and reporting requirements, including a requirement that projects proposed for SB1 funding must be designated by resolution. The proposed FY2020 CIP includes an additional \$1 million to supplement existing approved funding for the planned Camino De Los Mares street rehabilitation project. This project will improve Camino De Los Mares from Interstate 5 to Avenida Vaquero by reconstructing failed pavement areas, grinding and overlaying the entire pavement area, reconstructing deficient median curbs, removing and replacing damaged sidewalk, reconstructing deficient curb ramps, and improving the median landscaping with a drought-tolerant plant palette (median landscaping on Camino De Estrella on the west side of Interstate 5 will also be improved). Project design is underway, and work to date indicates that additional funding will be needed due to increased pavement section and median curb reconstruction needs. The current approved project budget is about \$1.8 million, which is funded primarily with gas tax funds. The

proposed FY2020 CIP will include a request to add another \$1 million of SB1 gas tax funding to the project. Project construction is anticipated in early 2020. The attached resolution is required by the State to formally designate SB1 gas tax funds to the project. This resolution is being presented to the City Council now because it must be submitted to the State by May 1 for programming of SB1 gas tax funds in FY2020.
