AGENDA REPORT

SAN CLEMENTE CITY COUNCIL MEETING

Meeting Date: September 3, 2019

- Department:** City Clerk
City Attorney
- Prepared By:** Joanne Baade, City Clerk/Legislative Administrator
Scott C. Smith, City Attorney
- Subject:** ***PROPOSED MODIFICATIONS TO RECORDS MANAGEMENT PROGRAM POLICY 104-1 AND CITY OF SAN CLEMENTE RECORD RETENTION SCHEDULE***
- Fiscal Impact:** None.
- Background:** Records Management Program Policy 104-1 (“Policy 104-1”) and the City’s Record Retention Schedule govern, among other things, the maintenance, retention, and disposition of City records based on State statutes. Members of the public have raised some questions and objections about how the City interprets and applies its records retention and disclosure Policy. Staff has agendized Policy 104-1 and the City’s Records Retention Schedule to enable Council to consider possible revisions and clarifications, including modifications relating to the following:

Documents Exempt From Disclosure

Attorney Client Privilege

The first proposed modification to Policy 104.1 and the Record Retention Schedule clarifies that records shall not be designated as attorney-client privileged or attorney work product based solely upon the fact that the City Attorney was copied (e.g., “cc’d”) on such record. In practice, when the City Attorney is copied on a record and that record is requested by the public, staff examines the substance of each document to determine whether it should be withheld to preserve the confidential relationship between the City Attorney and the City. A record is not automatically deemed exempt solely on the basis that the City Attorney is copied. However, Staff suggests that Policy 104.1 and the City’s Record Retention Schedule be modified to make it clear that records on which the City Attorney are copied shall not be deemed attorney-client privileged or attorney work product solely upon the basis that the City Attorney is copied. The Policy and Schedule clarifies that the City Attorney shall determine whether a record is attorney-client privileged or attorney work product based upon applicable statute or case law.

Other Exemptions

The second potential modification to Policy 104.1 simplifies what other exemptions and privileges the City may rely on to withhold documents. The revised language provides that the statutory exemptions are found in Government Code sections 6254 and 6255 as well as applicable case law.

Disclosure of Legal Billing

The third potential modification to Policy 104.1 and the City's Record Retention Schedule relates to the disclosure of legal billing and invoices. Differences of opinion have recently been expressed as to whether members of the public are entitled to un-redacted legal bills and invoices. There is a body of law on this issue that differentiates between legal bills related to active litigation and closed litigation issues. (*County of Los Angeles Bd. of Supervisors v. Superior Court* (2017) 12 Cal.App.5th 1264.) The line of cases provides that the attorney-client privilege clearly applies to the entirety of a legal bill or invoice relating to active litigation matters. However, information from a concluded litigation matter, particularly a cumulative legal fee total, may not be attorney-client privileged. (*Id.*) To clarify this issue, Staff recommends that Policy 104.1 and the City's Record Retention Schedule be revised to include a process to provide legal bills and invoices (or portions thereof) of closed litigation matters to members of the public who have requested them before those records are destroyed.

In the proposed process, if a requester has asked for a legal bill or invoice related to litigation, the City would release portions of the bill/invoice to the requester once the litigation matter has closed. Specifically, the City would release the identity of the biller, the date of the entry, the rate charged, and one fee total.

Exemption of "Preliminary Drafts"

A fourth potential change to the Records Retention Schedule relates to "preliminary drafts" of documents. Differences of opinion have recently been expressed as to whether the City is required to retain preliminary draft documents, notes, and interagency and intra-agency memoranda. There has been particular focus on draft agendas, Council-annotated agendas, and Council agenda notes taken at Council meetings and closed sessions. Staff suggests revising the City's Record Retention Schedule to expressly provide that draft agendas, Council's-annotated agendas, agenda notes taken at Council meetings and in closed sessions are preliminary drafts, notes, or interagency or intra-agency memoranda that are kept in the ordinary course of business by the City for a period of two years. Staff further suggests revising the City's Record Retention Schedule to provide that any documents from which Councilmembers or staff read aloud at a public meeting shall also be retained for a period of two years, and shall not be exempt from disclosure pursuant to Gov. Code §6254(a). Any unread material in such documents would still be subject to applicable exemptions.

Summary

Staff recommends that Council provide direction on the proposed changes to Policy 104-1 and the City's Record Retention Schedule as identified in this report, and to direct any other changes that it deems desirable. Redlined copies of Policy 104-1 and the City's Record Retention Schedule are included as Attachment 1 and Attachment 2, respectively, to this Administrative Report to delineate the possible new language to implement the changes identified in this report.

Recommended

Action: STAFF RECOMMENDS THAT the City Council:

- 1) Approve the changes to Records Management Program Policy 104-1 as outlined in Attachment 1 to the Administrative Report.
- 2) Approve the changes to the City's Record Retention Schedule as outlined in Attachment 2 to this Administrative Report.

Attachments: 1) Records Management Program Policy 104-1 Showing Proposed Modifications
2) Record Retention Schedule Showing Proposed Modifications

Notification: None

POLICY AND PROCEDURE

Subject: Records Management Program	Index: Administration & Policy Management Number: 104-1
Effective Date: September 18, 2007 <u>August</u> <u>, 2019</u>	Prepared By: City Clerk
Supersedes: April 5, 1995 <u>September</u> <u>18, 2007</u>	Approved By:

1.0 **PURPOSE:**

To establish a Records Management Program to control the orderly creation, utilization, maintenance, retention, preservation and disposition of City records, based on State Statutes governing public records.

2.0 **ORGANIZATIONS AFFECTED:**

All departments

3.0 **REFERENCES:**

California Government Code; Federal Codes; Best Practices, as established by the Association of Records Managers and Administrators (ARMA) and the Association of Records Managers and Administrators (AIIM).

4.0 **POLICY:**

A Records Management Program, under the supervision and administration of the City Clerk, is hereby established for the orderly maintenance and storage of City records which are retained for administrative, operational, legal, fiscal, historical, or research purposes. The objectives of the Records Management Program are:

- 4.1 Preservation of records with long-term or permanent value.
- 4.2 Protection of records vital to the City in the event of a disaster.
- 4.3 Efficient information retrieval through a uniform classification and computerized filing system.
- 4.4 To define the process for identifying and converting records into the Electronic Document Management System (EDMS).

- 4.5 Transfer of inactive records from high-cost office space to low-cost storage or converting them to the Electronic Document Management System (EDMS), thus reducing filing equipment and space.
- 4.6 Orderly destruction of records and working papers no longer required by statute to be retained, have reached their maximum retention period, and which are no longer needed for administrative, operational, legal, fiscal, historical, or research purposes, or are stored electronically.

5.0 **DEFINITIONS:**

- 5.1 **Record:** Any writing containing information relating to the conduct of the City's business prepared, owned, used or retained by the City, regardless of physical form or characteristics. "Writing" means handwriting, typewriting, printing, photostating, photographing, and every other means of recording upon any form of communication or representation, including letters, words, pictures, sounds, or symbols, or any combination thereof, and all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums and other documents.
- 5.2 **Permanent Records:** Resolutions, ordinances, and minutes of all City Council, commissions and committees, and any other records classified by the California Government Code as permanent.
- 5.3 **Vital Records:** Records containing information essential for the City to resume operation after a disaster. Records containing information regarding claims to present or future income, records necessary to protect the City against fraud or overpayment, and records furnishing data on current assets, equipment, securities and real estate. (Examples of this type of record may include current financial statements, ledgers, property deeds, leases, contracts, permits, licenses, original plans and specifications for City streets and facilities.
- 5.4 **Inactive Records:** Records more than two years old, which are accessed infrequently, and are of no further administrative, operational, legal, fiscal, or historical value in carrying out City business. Inactive records may include records exempt from public disclosure.
- 5.5 **Records Exempt From Public Disclosure:** Records and files of the City Attorney, and all attorney-client privileged information. A record shall not be designated as attorney-client privileged or attorney work product based solely upon the fact that the City Attorney was copied (e.g., "cc'd") on such record. The City Attorney shall determine whether a record is attorney-client privileged or attorney work product based upon applicable statute or case law including, without limitation, Evidence Code sections 952 and 954 and Code of Civil Procedure section 2018.030, respectively. Other records exempt from public disclosure are records that meet the definitions set forth in , pursuant to GC 6254 and 6255 and as set forth in applicable case law, may include, but are not limited to: preliminary drafts, notes, interagency and intra-agency memoranda which are not retained in the ordinary course of

~~business; records pertaining to pending litigation; personnel, medical or similar files; certain records of complaints to and investigations conducted by the City for law enforcement or licensing purposes; the contents of certain real estate appraisals or engineering or feasibility estimates; and certain information required from any taxpayer in connection with the collection of local taxes.~~

- 5.6 **Records Retention:** The process of identifying the length of time the records are to be retained, and any statutory requirements applicable to that class of records.
- 5.7 **Records Retention Schedule:** Document describing the records maintained by the City, and specifying, in accordance with statutory requirements, the period of time records must be retained before they may be destroyed.
- 5.8 **Departmental Records Coordinators:** Employees designated by departments to maintain and control the disposition of records in the respective departments.
- 5.9 **Records Management Staff:** The City Clerk, Records Management Coordinator, and City Clerk staff.
- 5.10 **Records Management Committee:** An administrative committee consisting of designated Records Coordinators from each City department and Records Management Staff, created for the purpose of implementing and administering the Records Management Program.
- 5.11 **Electronic Document Management System (EDMS):** An electronic system designed to maintain/archive the City's permanent and vital records, and other records determined by the individual departments to be necessary for the ongoing, efficient conduct of business.
- 5.12 **Information Technology System:** Any process or system that employs a mechanical, photo-optical, magnetic, electronic or other technological device for producing or reproducing records.

6.0 **PROCEDURE:**

- 6.1 **Records Management Committee** - A Records Management Committee, consisting of the designated Records Coordinators from each City department, is hereby created for the purpose of implementing and administering the City's Records Management Program, with assistance and direction from the Records Management Staff. Each department shall designate a qualified individual or individuals with the authority to maintain and determine the disposition of the records contained in that department, to manage the departmental records, and to serve on the Records Management Committee.
- 6.2 **Records Retention Schedule** - The Records Retention Schedule is a document that establishes the retention period for the City's records, pursuant to the California Government Code. Upon final approval of the City Attorney and the City Council, the Records Retention Schedule serves as the City's guideline for the orderly

maintenance, storage, preservation and/or destruction of public records. The Records Management Staff is responsible for maintaining an up-to-date Records Retention Schedule. Administrative records not currently identified in the Records Retention Schedule may be added to the Records Retention Schedule, as necessary, upon approval by the City Attorney.

- 6.3 Inactive Records - Records more than two years old, which are accessed infrequently, and are of no further administrative, legal, fiscal or historical value in carrying out City business, are to be transferred from the office areas, for more cost-efficient storage, or are to be converted into the Electronic Document Management System (EDMS).
- 6.4 Records Destruction Process - Inactive records maintained beyond the maximum retention period, pursuant to the Records Retention Schedule, are to be destroyed in accordance with the following procedures:
 - 6.4.1 No less than annually, Departmental Records Coordinators, using the Records Retention Schedule as a guideline, shall evaluate the inactive records to determine if they meet, or have exceeded, the maximum retention period.
 - 6.4.2 Records to be destroyed shall be itemized on a Records Destruction Request Form, indicating the retention/destruction date, signed by the Department Head, and submitted to the Records Management Coordinator for inclusion in a resolution to be adopted by the City Council for destruction of those records.
 - 6.4.3 Following approval of the destruction requests by the City Clerk and City Attorney, the City Clerk shall prepare the resolution and agenda report for submittal to the City Council for adoption.
 - 6.4.4 Upon adoption of the resolution of destruction by the City Council, the Records Management Coordinator shall arrange for the proper destruction of the records by an accredited destruction company, and shall obtain a Certificate of Destruction from that firm to be maintained in the City's records.
 - 6.4.5 Hard copies of records which have been converted into the EDMS and have been reviewed, through the Quality Control process, to ensure accurate conversion into the EDMS, may be destroyed without further approval by the City Attorney or City Council
- 6.5 Legal Billing – All legal bills or invoices issued by the City Attorney must be retained for five (5) years from the conclusion of the matter, and this is the case regardless of whether there has been a request for disclosure.

In any case of redaction of legal bills or invoices by the City, the only material subject to redaction is that which contains attorney-client privileged or attorney work product information, based upon applicable statute or case law including,

without limitation, Evidence Code sections 952 and 954 and Code of Civil Procedure section 2018.030.

If a requester has asked for legal bills or invoices related to a litigation matter and the disclosure has been denied (in full or in part) because the records are exempt from public disclosure, the City shall be required to disclose to the requester the legal basis or bases for the exemption. Once the litigation matter has concluded, the legal bills or invoices shall be provided to the requestor, redacted to protect attorney-client privileged or attorney work product information, as set forth above, however, the following information shall not be redacted: the identity of the biller, the date of the entry, the rate charged, and one fee total.

Following the disclosure of the subject records (or portions thereof) to the requestor, the subject legal bills and invoices may be destroyed pursuant to the City's regular records destruction process and following conclusion of the required retention period, as set forth in this paragraph 6.5.

6.56.6 Permanent Records - The original of all records classified as Permanent Records pursuant to the Records Retention Schedule, are to be converted to the EDMS. Hard copies of resolutions, ordinances and minutes are to be retained permanently.

1703 Legal Service Billings	Accounting All legal bills or invoices issued by the City Attorney must be retained for five (5) years from the conclusion of the matter, and this is the case regardless of whether there has been a request for disclosure. In any case of redaction of legal bills or invoices by the City, the only material subject to redaction is that which contains attorney-client privileged or attorney work product information, based upon applicable statute or case law including, without limitation, Evidence Code sections 952 and 954 and Code of Civil Procedure section 2018.030. If a requester has asked for legal bills or invoices related to a litigation matter and the disclosure has been denied (in full or in part) because the records are exempt from public disclosure, the City shall be required to disclose to the requester the legal basis or bases for the exemption. Once the litigation matter has concluded, the legal bills or invoices shall be provided to the requestor, redacted to protect attorney-client privileged or attorney work product information, as set forth above, however, the following information shall not be redacted: the identity of the biller, the date of the entry, the rate charged, and one fee total. Following the disclosure of the subject records (or portions thereof) to the requestor, the subject legal bills and invoices may be destroyed pursuant to the City's regular records destruction process and following conclusion of the required retention period.	CL + 5 years GC 34090
