**FOR IMMEDIATE RELEASE**  
**10/7/2019**

### **Electric Vehicle Charging Stations Now Available at City Hall**

October 7, 2019...San Clemente, California...The City of San Clemente is pleased to announce the availability of new electric vehicle charging stations at San Clemente City Hall located at 910 Calle Negocio. The new ChargePoint network stations were activated on October 7th, and are available 24 hours per day, 7 days per week to anyone with a ChargePoint account. The stations are located in the City Hall parking lot to the right of the City Hall building entrance. The charging stations consist of two DC Fast Charge stations and one Level 2 station with two ports, for a total of four electric vehicle charging spaces.

Electric vehicle drivers can take advantage of the new charging stations by using the ChargePoint app (available in the Apple App Store and Google Play Store) or by creating an account at [www.chargepoint.com](http://www.chargepoint.com). Users will be charged a nominal fee of 20 cents per kilowatt hour while charging to cover the City's costs. To encourage vehicles to be moved when charging is completed, there is also a \$5 per hour parking charge which will begin after one hour in the DC Fast Charge spaces, and after three hours in the Level 2 spaces. The new charging stations were primarily funded by California Energy Commission rebates and Mobile Source Pollution Reduction grant funds.
