FOR IMMEDIATE RELEASE

North Beach Historic District Tour

February 21, 2020...San Clemente, California...The City of San Clemente invites the community to participate in a walking tour of North Beach's historic commercial buildings in preparation for the nomination of North Beach as a National Register Historic District. The tour will begin at 9 AM on Friday, February 28, 2020, at the front lawn of the historic Casino and progress to the Miramar Theater, bowling alley, Ole Hanson Beach Club, and Aquarium Café (OC Fresca) buildings. At each building, the property owner, a member of the City's staff, or the San Clemente Historical Society will provide background on the history of the property and its significance to the City. GPA Consulting, the consultant who will be preparing the nomination forms to list the properties as a National Register Historic District, will also attend the tour. The walking tour will last approximately one hour and there is no cost to participate. City staff and GPA Consulting will be available for further questions and discussion after the tour. Residents are encouraged to share any photographs or other articles of historic interest related to North Beach to assist in the nomination process. If you are unable to attend the tour, but would still like to submit historic items of interest, please email Jonathan Lightfoot at LightfootJ@san-clemente.org.
