

May Day Baskets

Gather the Materials

Colored paper

Ribbon

Double-sided tape

Hole Punch

Paper doily

Scissors

Roll the Paper into a Cone Shape

First, make sure your paper is a square shape. Next, put the double sided tape on the left-hand side. Then, take the bottom right corner of the paper and begin roll it up, as shown.

Secure the Cone

Bring the other side (with tape on it) toward the rolled paper to complete the cone shape. Once it looks right, press together the edges to seal the cone shape.

Tape the Lace Doily on the Cone

Tape the paper doily onto the cone. You can use just one or layer a couple, whatever you like the best.

Add a Ribbon Handle

Take your hole punch and make holes on either side of the May basket. To make a handle, put a ribbon through and secure on both sides with a double knot.
