Subject: *ESTABLISHING APPROPRIATIONS LIMIT FOR FISCAL YEAR (FY) 2020-21*

Fiscal Impact: None

Summary: The California Constitution limits the amount an individual city can budget (appropriate) from tax revenue proceeds each year. This limit, called an "appropriations limit", is calculated by each City annually and must be established via a formal resolution of the City's governing body. For FY 2020-21 the City of San Clemente's calculated appropriations limit is \$96,929,190. The amount the City is budgeting from proceeds of taxes for FY 2020-21 is well below that limit.

Background: Article XIII B of the California Constitution specifies that cities annually establish an appropriations limit by formal resolution of the City's governing body. Article XIII B further specifies this limit may increase annually by a factor comprised of the changes in population for the City or the County (whichever is higher), combined with either the change in California per capita personal income or the change in the local assessment roll due to nonresidential construction. The State Department of Finance transmits an estimate of the percentage change in population to local governments annually, per California Revenue and Taxation Code Section 2227. This information is used to establish the FY 2020-21 appropriations limit.

Discussion: The calculation of San Clemente's appropriation limit for FY 2020-21 is presented on the Exhibits attached to this report. For the FY 2020-21 calculation, the annual adjustment factor is based on population change for the City of San Clemente and the change in California per capita income. Using these in the calculation results in an overall increase in the appropriations limit of \$3,541,484 for a total of \$96,929,190. The budgeted proceeds of taxes total \$51,152,311, which represents 53% of the amount the City is entitled to appropriate for FY 2020-21. In addition, the City remains in compliance with the appropriations limit for FY 2019-20.
