

# THOR'S HAMMER

## Supplies:

\*KLEENEX BOX (FULL) \*PAPER TOWEL TUBE \*DUCT TAPE \*TIN FOIL  
\*BROWN PAPER OR VINYL

## Directions:

1. Use a full Kleenex box, to lend weight to the hammer. Put the paper towel tube into the opening of the box, and run duct tape around to secure it.
2. Once you have secured the tissue box to the tube, take the tin foil and ball it up, stuffing it into the opening of the tube. This gives your cardboard handle some stuffing to brace the heavy box (and tiny grips!)
3. Wrap duct tape around the rest of the tube, over the end, and finish covering the box. An extra layer will add support to both the "hammer" and the "handle".
4. Once you are fully covered, take an 8x10 piece of brown paper, duct tape paper, or vinyl, and wrap around the center of the "handle".
