

# THUMBPRINT CRAFT

## Supplies:

- \*White Construction Paper
- \*Colored Cardstock
- \*Scissors
- \*Painters Tape
- \*Paint – you could use dad's favorite colors

## Directions:

1. Trace and cut out the words "I <3 DAD" on colored cardstock.
2. Tape the letters onto a piece of white paper (put the tape on the back side with the tape rolled).
3. Get the paint ready on something flat to press their thumb onto.
4. Next, choose a color that you think Dad will like, and begin making thumbprints all around the edges of the letters and heart.
5. Continue making thumbprints around each letter, and then begin making more and more away from the letters, scattering them around the page.
6. Next, you can use another color of paint and make more thumbprints all around the rest of the page. When you get to the corners, it helps to hold the paper down so it doesn't lift while you make your prints.
7. Once the paint dries, gently pull off the card stock letters.
