

Housing Element and Safety Element Update Community Webinar #1

Join us for the first webinar for the City's Housing and Safety Element Updates to discuss the City's housing and safety needs!

THURSDAY, OCTOBER 22, 2020
5:30-7:00 PM

The City of San Clemente has begun the process of updating the General Plan Housing Element for the 2021-2029 Planning Period and the Safety Element and wants to hear from you.

Community Workshop #1 will cover the basics about the Housing Element and Safety Element Update requirements and is intended to identify housing and safety needs that should be addressed.

The **Housing Element** includes goals, policies, programs, and quantified objectives for adequately housing our future population.

The **Safety Element** addresses a variety of natural and human-related hazards (Seismic, Geologic, and Soil; Flood; Wildfire; Public Safety and Emergency Management Facilities; Hazardous Materials and Radiological Hazards; and Climate Change Adaptation and Resilience) and contains goals and policies aimed at reducing the risk associated with these hazards.
