NOTES:

- 1. These regulations apply to private residential stairways only. Refer to the 2019 Edition of the California Building Code for the construction of stairs other than private residential.
- 2. For exceptions related to the construction of winding, circular or spiral stairs, see the 2019 Edition of the California Residential Code.
- 3. The largest rise or run within any flight of stairs shall not exceed the smallest by more than 3/8".
- 4. Stair nosing shall be 3/4" min./1-1/4" max. where tread depth is less than 11".
- 5. A landing extending the width of the stair is required at the top and bottom of every stairway.
- 6. If an intermediate landing is provided, the depth of such shall be equal to or greater than the required width of the stair in which it occurs.
