P3a. Description:

The property includes the Max Berg Plaza Park, historically known as Plaza Park. The park was originally planned and constructed for the City of San Clemente in 1928. It has always been used as a public park. Altered from its original design in recent years by the Parks Department, a lake and other original water features are no longer extant. However, the park retains its original boundaries, approach from El Portal, and interior cross-axial pattern. Tree clusters within the park may be from the original landscape design, as denoted on historic plans.
