Slurry sealing of: Ave. Santa Margarita and E. Ave. Magdalena **(UPDATED SCHEDULE)**

Dear Resident:

The City of San Clemente has contracted with Roy Allan Slurry Seal, Inc. for slurry sealing Ave. Santa Margarita and E. Ave. Magdalena. The street will be posted for Temporary No Parking for this work. Due to the forecast for inclement weather on Friday, the placement of slurry seal on E. Ave. Magdalena has been re-scheduled to be completed on Thursday, April 21 and Tuesday, April 26, 2022. **See the schedule at the bottom of this notice for details.** The work day will begin after 8:00 a.m. The contractor will begin closing the street and sweeping the street prior to the slurry seal application. Depending on weather, Ave. Santa Margarita and E. Ave. Magdalena will re-open to traffic approximately five hours after the time the street is sealed. It is anticipated that the street will be re-opened to traffic no later than 5:30 p.m. The freshly placed slurry seal material will be rolled with a rubber tired roller prior to opening. However, for several weeks after application of the slurry seal, tire marks will be left from turning on the material. These marks are normal, and will diminish as the material cures out.

On the slurry seal dates, parking on Ave. Santa Margarita and E. Ave. Magdalena will be prohibited until barricades are removed. Vehicles parked on the posted street with signs indicating "TEMPORARY NO PARKING" during the time indicated on the sign will be towed at the owner's expense. Please move your vehicles to a nearby street before the start of the workday and walk back to your home while the streets are closed for application of the slurry seal. Do not move any traffic control barricades or drive on the street after the slurry is applied, as the street surface will be scarred and your vehicle's tires will track the slurry mix.

Thursday, April 21

Ave. Santa Margarita (E. Ave. Magdalena to 200 Ave. Santa Margarita)
E. Ave. Magdalena (WB side of E. Ave. Magdalena)

Tuesday, April 26

E. Ave. Magdalena (EB side of E. Ave. Magdalena S. El Camino Real to Los
Bautismos Lane)

Please call Porfirio Heredia, Project Manager for Roy Allan Slurry Seal, Inc. at (562) 864-3363 if you have any questions regarding the above schedule. Your cooperation is appreciated during this improvement project. Thanks.
