

3.

CITY OF SAN CLEMENTE PLANNING COMMISSION APPLICATION

. Name: Carrieron Cosgrov	1.	Name:	Cameron	Cosgrove
---------------------------	----	-------	---------	----------

- How long have you lived in San Clemente? 9 years
 - What is your occupation? Retired
- 4. Please explain why you would like to serve on the Planning Commission.
 I want to continue my service on the Planning Commission. I have enjoyed the past year on the PC and have come up to speed on critical planning issues such as the housing element update, Centennial General Plan and Implementation program, Local Coastal Program Land Use Plan (LUP), West Pico Corridor Specific Plan.

I feel it is important to work with City Staff on the Implemetation Plan for the General Plan. I see part of my role is to seek out and listen to stakeholders view points regarding the impacts changes may have and bring those concerns to the attention of Staff so stakeholders feel heard and their concerns are addressed.

I see the adoption of a new LCP as very important because it will give the City more control over approving projects within the City's Coastal Zone and will streamline the Coastal Development Permit review process for project applicants. I would also like to participate on the Design Review subcommittee for the deep dives into projects.

Please explain how your background and experience would contribute to the Planning Commission.
There are many opportunities for stakeholder engagement to improve the process of making public policy and obtain buy-in on implementation plans. I have the time to engage stakeholders for the purpose of listening and being a well informed commissioner.

As part of the West Pico Corridors specific plan, I have met in person with numerous business owners in the Los Molinos industrial zone to listen to their needs, plans and thoughts about the architectural overlay district. I have participated in their Los Molinos assoication meetings to understand their perspective and share that feedback with City Staff. There is great interest by business owners to make this part of town more engaging as well as remain industrial. It is important to listen to stakeholders so we can build a better City together.

I have over 10 years experience in City planning, policy and budgets.

6. What is your educational background?

High School/Colleges Attended	Major Field of Study	Degree?
University High School, Irvine	General	Yes
California State University, Long Beach	Business Administration	BS

1	Public Safety and quality of life is paramount with family oriented community development standards
2	Small town feel is part of why SC feels so special and charming. Keeping SC a small town while implementing.
	General Plan is a balancing act of competing interestswhich should be done with transparancy and engagement
3	3. Keeping our beaches safe and clean with sand protection programs is esstential to the City
1	n your opinion, what are three characteristics of San Clemente that are most in need of correction? Finding ways to enable stakeholders to success where interests are addressed fairly without micro management
•	Retaining top talent in the planning department.
2	Continued General Plan Implementation. Local Coastal Program is crictial to take control over the cosatal zon
3	Downtown parking. Create a program to address the need for more parking. Finding creative ways to improve
	El Camino Real.
cl el	Please explain any experience that you have had in community, governmental, charitable or educational affair he past year on the PC has been a great experience for me to contribute back to this great City. I have learned a labout the General Plan, Coastal Zone challenges, Community Development Department staff, processes and their hallenges. I'm very supportive of our professional staff and enjoy partening with them to make their jobs more nriching and successful.
