Subject: Slurry sealing on Calle Frontera (Camino Faro to Calle Vallarta)

Dear Resident:

The City of San Clemente has contracted with Roy Allan Slurry Seal, Inc. for slurry sealing streets throughout the City. The placement of slurry seal on Calle Frontera is scheduled for Tuesday, September 26, Wednesday, September 27 and Thursday, September 28. The work day will begin after 8:00 a.m. The contractor will begin by sweeping the street prior to the slurry seal application. It is anticipated that the street will be re-opened to traffic no later than 5:00 p.m. The freshly placed slurry seal material will be rolled with a rubber tired roller prior to opening. However, for several weeks after application of the slurry seal, tire marks will be left from turning on the material. These marks are normal, and will diminish as the material cures out.

On the slurry seal dates, **parking** on the street will be prohibited until barricades are removed. Vehicles parked on the posted street with signs indicating "TEMPORARY NO PARKING" during the time indicated on the sign will be towed at the owner's expense. Also, if your vehicle overhangs the gutter while parked in your driveway, please move it. Please move your vehicles to a nearby street before the start of the workday and walk back to your home while the section of your street is closed in front of your driveway for application of the slurry seal. Do not move any traffic control barricades or drive on the street after the slurry is applied, as the street surface will be scarred and your vehicle's tires will track the slurry mix. The slurry seal is scheduled as follows:

Slurry sealing on Tuesday, September 26, 2023

Calle Frontera (odd address side, Calle Vallarta to Camino Faro)

Slurry sealing on Wednesday, September 27, 2023

Calle Frontera (even address side, Camino Faro to Calle Vallarta)

Slurry sealing on Thursday, September 28, 2023

Calle Frontera (middle portion, Camino Faro to Calle Vallarta)

Please call Porfirio Heredia, Project Manager for Roy Allan Slurry Seal, Inc. at (562) 864-3363 if you have any questions regarding the above schedule. Your cooperation is appreciated during this improvement project. Thanks.
