**FOR IMMEDIATE RELEASE**

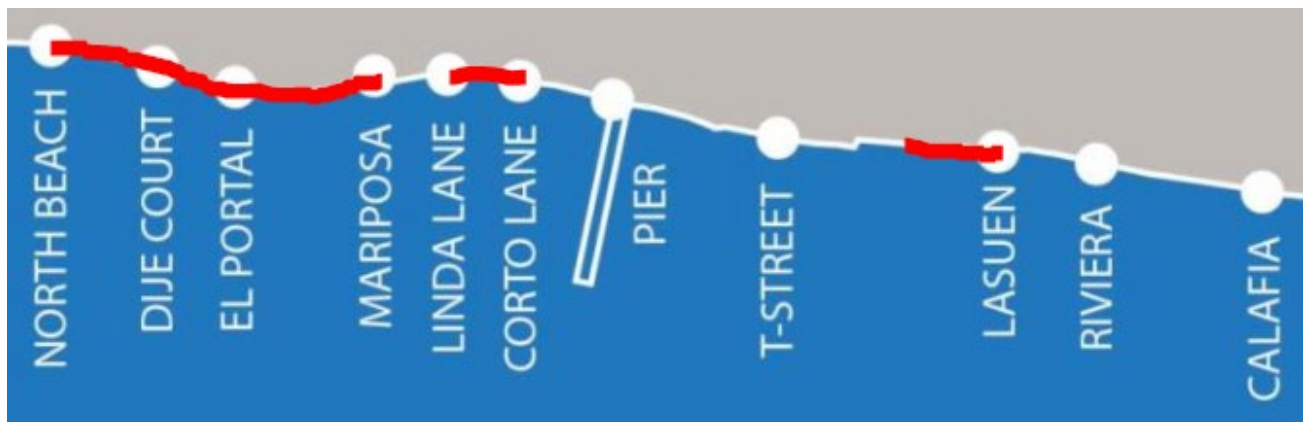

### Update Regarding Additional Beach Trail Closures Due to Slope Movement

February 8, 2024... San Clemente, California.... Falling rock and debris flows from the coastal bluff in multiple areas continue to pose hazards to public health and safety. The closure areas shown below will remain closed through the weekend. As dry weather conditions continue, the impacted areas will be reevaluated, cleared of debris, and reopened for public use. For your safety, please continue to avoid these areas.

Background:

Due to additional slope movement, additional portions of the San Clemente Beach Trail have been closed for public safety.

- From North Beach access to Mariposa access
- Linda Lane access to Corto Lane access
- From Boca Del Canon access to Lasuen access

 Trail closure areas shown in red.

The access stairs at Dije Court, El Portal, and Lasuen Beach Accesses have also been closed for the safety of the public.

The need for additional closures may be required as situations change. The public is reminded to please avoid any closed areas and pay attention to signage and barricades as these areas have hazards that may pose a risk to health and safety. The City of San Clemente does not take closure of these important amenities lightly, and will reevaluate the need for closures and reopen as soon as possible.
