Subject: Delineator on El Camino Real before Esplanade

I would like to confirm that I am in full support of the replacement of the existing delineators with left-turn pocket to Esplanade on El Camino Real. It does not make sense to divert traffic from a two-way street with median and pedestrian refuge to a two-way street with painted middle line. This is particularly true when drivers do not respect the middle line and kids speed and zigzag on their electrical bikes. This is unfortunately a recipe for fatal accident.

Sincerely,

Vincent Roquebert, P.E.
