

SB 1383

FOOD RECOVERY COMPLIANCE

At CR&R, we are on a mission to educate people and communities that there is enough food to go around and that there is an abundance of solutions available to reduce food insecurity and food waste. In partnership with the city, we are tasked with educating, providing outreach and solutions to assist food generators to gain compliance with the requirements of SB 1383.

820322SB1383-SC-FT

What is SB 1383?

SB 1383 is a state mandate effort to reduce organic waste in California landfills by 75%, and to increase edible food recovery by 20% by the year 2025.

Why is the law in place?

California has made a commitment to reduce greenhouse gas emissions. SB1383 is an effort to reduce methane emissions by reducing the amount of organics in landfills.

How does this affect me?

As a Tier 1 or Tier 2 food generator (see back page to identify your Tier), you must comply with SB1383 or will face fines and penalties. Your business must be compliant by the required deadlines or face penalties.

When?

Year:	Requirement:	What this means to you:
Jan 1, 2020	50% reduction in organic waste disposal	Identify a food recovery service or food recovery organization to partner with
Jan 1, 2022	Regulations take effect and enforcement begins	Tier 1 shall be compliant with SB 1383 requirements (See page 2)
Jan 1, 2024	Local governments take enforcement	Noncompliance notice of violations and penalties will begin. Tier 2 shall be compliant with SB 1383 requirements (See page 2)
Jan 1, 2025	75% reduction in organics waste disposal and 20% increase in edible food recovery	You should have food recovery service or organization established and recovering all edible excess food from your facility

Are you a **TIER 1** or **TIER 2** food generator?

FOOD IS MONEY

The City of San Clemente and CR&R Environmental Services have partnered with Abound Food Care who will work with permitted food establishments to rescue their surplus food before it's wasted. Perishable and nonperishable food can be distributed to local non-profit agencies within hours. Not only can excess edible food donation help you create an understanding with staff that **'Food is Money,'** but it can also positively impact your bottom line.

Benefits:

- Bottom Line Benefits. Save money through edible food donation. Cost benefits from tax deductions, operational adjustments, and reduced waste hauling expenses.
- SB 1383 Compliance. Compliance with state mandates.
- Value Added Marketing. Recognition as a community hero.
- Brand Protection. Trust that your brand's image and reputation are cared for.

Features:

- Food Safety Protocols and Technology. Protect your food and your brand through enhanced food safety systems.
- Convenient Pick-ups. Flexible pickup schedules.
- Automatic Data Tracking. Keep track of pounds donated with easy to read reporting.
- Compliance Contract. One simple donation agreement with Abound maintains SB1383 compliance.
