Subject: 24.04.16 Agenda Item 7B - SUPPORT Map 120.

Dear San Clemente City Council,

I support Map 120 as the final district map for San Clemente. In January 2024, I spoke to Council supporting Map 120 or Map 109, and provided documentation showing how these Maps meet the required criteria. Map 120, fine-tunes and makes a small technical adjustment to Map 109 and best follows the guidelines by not dividing an area of interest, the Pier Bowl. I'm glad this adjustment can be made for our fellow citizens.

I encourage the city council to vote unanimously 5-0 for this map showing unity from our city and residents. Map 120 keeps communities of interest together, like Southwest San Clemente, the Pier Bowl and Forster Ranch.

Thank you for your consideration of uniting the Pier Bowl and finalizing Map 120.

Good morning,

Your ideas are solid and will be considered! There are some new provisions that make even minor adjustments more challenging, but your research and suggestions are impressive. Thank you for passing them along!

Andy

Dear Mr. Hall,

I wanted to thank-you on behalf of our neighborhood for bringing your leadership to our City. We really appreciate you. We do have some unique issues here and many citizens that passionately care about our City.

Approving Map 109 was fantastic. So glad we all can move forward, and onto other important work.

One of my slogans as an Architect is 'Balancing the Dreams of Clients'.

Idea. I was just thinking that in Ordinance No. 1762, page 5, it states that "the City Manager is authorized to make technical adjustments to the district boundaries....."

I don't know the concerns/Issues around the Pier Bowl and RSC business park splits. But, if this is something that can be used to support those citizens, I would be in support.

What a gorgeous day here in SC, we are so blessed.
