

AGENDA REPORT

CITY OF SAN CLEMENTE

CITY COUNCIL MEETING

910 Calle Negocio
2nd Floor
San Clemente, California
www.san-clemente.org

Meeting Date: May 21, 2024

Agenda Item: 11G

Submitted By: Public Works

Prepared By: Dustin Burnside, Utilities Manager

Subject:

CONSIDERATION OF A RESOLUTION APPROVING THE PURCHASE OF TWO PROGRAMMABLE LOGIC CONTROLLERS AND INSTALLATION MATERIALS FROM ONESOURCE DISTRIBUTORS, A SOLE SOURCE VENDOR, FOR REPLACEMENT AT THE CITY'S WATER RECLAMATION PLANT, CIP PROJECT NO. 12605, AND FINDING THE PROJECT CATEGORICALLY EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

Fiscal Impact:

The estimated cost of \$122,794 for the purchase of two Programmable Logic Controllers (PLCs) and installation materials is within the approved budget amount of \$375,300 from the Sewer Fund Depreciation Reserve, Account Number 054-476-45300-000-12605.

Summary:

Programmable Logic Controllers (PLCs) are industrial computers that are used to automate water treatment processes as part of a Supervisory Control and Data Acquisition (SCADA) system. The City has over 70 PLCs installed to automate, collect, and control various equipment throughout the City's Utilities Operations. These PLCs are critical to the City's infrastructure and some have been in service since the 1990's, well beyond their useful life. The two being replaced at the Water Reclamation Plant, control the water flows and initial screening at the Headworks Building.

Before the City Council is consideration of a resolution authorizing expenditures for Fiscal Year 2023-2024 for the purchase of two PLCs, cabinets, and necessary parts and materials to replace the equipment using City staff. The recommended purchase will be from OneSource Distributors, based on the attached Sole Source Justification document for Allen Bradley components, and lowest quote for other necessary materials to complete the install. The total for the Allen Bradley specific components is \$109,147, and the remaining materials is \$13,647, for a total of \$122,794.

Background:

The City uses Allen Bradley components for compatibility with our existing SCADA system, and for their functionality, reliability, and ease of use. Rockwell Automation, who is the parent company of Allen Bradley, has submitted a Sole Source Justification letter (Attachment 6), advising that OneSource Distributors is the sole source distributor for Allen Bradley components in our region.

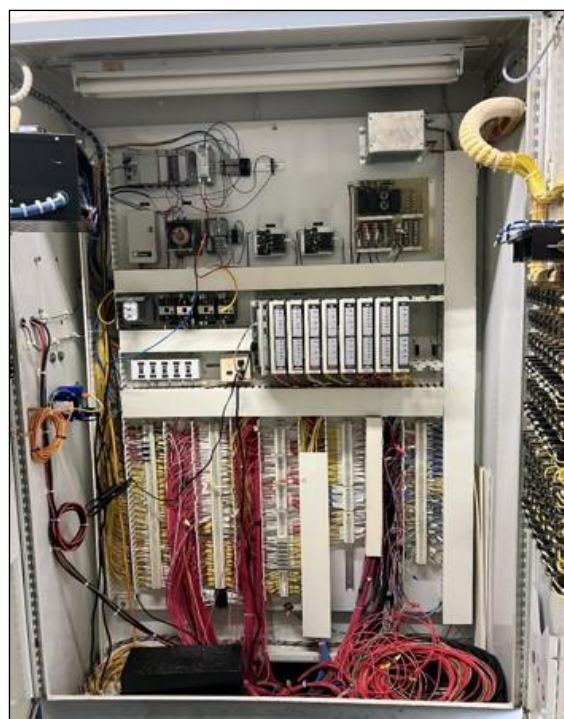

Some other parts and materials that are not made by Allen Bradley are needed to complete the installation. Staff obtained three quotes for those other materials, and OneSource Distributors was the lowest of the quotes received at \$13,646.96.

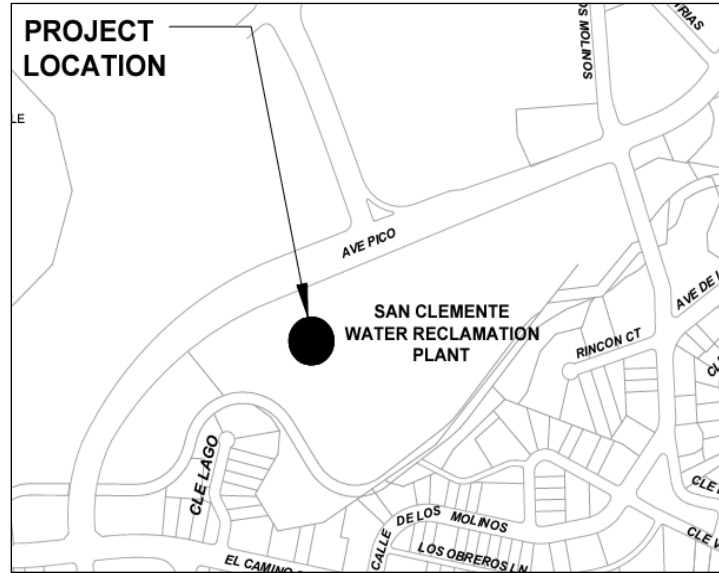

City Policy Number 201-2-1 “Purchasing Policies & Procedures for Supplies, Materials and Equipment” allows for the purchase of the sole source Allen-Bradley components as follows:

- Section 6.2.3 of the Policy allows these types of purchases under a “Contract Purchase Order” which is an agreement whereby the terms and conditions, pricing, and special provisions are agreed to and apply to individual commitments within a pre-established time period. The price quotes from OneSource Distributors would result in Contract Purchase Orders.
- Section 6.17.2 of the Policy allows for exemption from the Informal and Formal Bidding Process for “Sole Source” suppliers which allows approval of the attached price quote with OneSource Distributors since they are the only distributor in Southern California for Allen Bradley components.

Staff reached out to the following bidders for the non-Allen Bradley installation materials, including Consumer Electrical Distributors, Inc., who has a branch located in San Clemente, and received the following quotes:

	BIDDER	AMOUNT
1	OneSource Distributors	\$13,646.96
2	Walters Wholesale Electric Co.	\$17,723.71
3	Consumer Electrical Distributors, Inc.	\$17,781.16

Council Options:

- Adopt Resolution No. 24-76, which will authorize the purchase of two Programmable Logic Controllers and installation materials from OneSource Distributors for replacement at the City’s Water Reclamation Plant, CIP Project No. 12605, and finding the project categorically exempt from the California Environmental Quality Act.
- Modify and approve Resolution No. 24-76.
- Continue the Item and direct staff to provide additional information.
- Deny the request to fund the purchase of two Programmable Logic Controllers and installation materials.

Environmental Review/Analysis:

Staff recommends that the City Council determine this action to be categorically exempt from the California Environmental Quality Act (CEQA) under Class 2 (Replacement or Reconstruction, 14 CCR Section 15302) of the State CEQA Guidelines because it consists of replacement of existing City equipment, involves negligible or no expansion of existing or former use and there is no possibility of a direct or reasonably foreseeable indirect effect on the environment.

Recommended Actions:

Staff Recommendation

STAFF RECOMENDS THAT the City Council adopt Resolution No. 24-76, which will:

1. Approve the expenditure for PLCs for Fiscal Year 2023-24 for a total amount not to exceed \$122,794; and
2. Approve the purchase of two replacement PLCs and installation materials from OneSource Distributors, as a sole source vendor for Allen Bradley components, and low bidder on other materials, based on the attached fixed price quotes; and

3. Find the project categorically exempt from the California Environmental Quality Act (CEQA) under Class 2 (Replacement or Reconstruction, 14 CCR Section 15302) of the State CEQA Guidelines.

Attachments:

1. Resolution No. 24-76
2. Price quotes for PLCs and installation materials from OneSource Distributors
3. Price quote for installation materials from Walters Wholesale Electric Co.
4. Price quote for Consumer Electrical Distributors, Inc. with a branch in San Clemente.
5. CEQA Notice of Exemption Form
6. Rockwell Automation Sole Source Justification Letter

Notification:

None.

RESOLUTION NO. 24-76

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SAN CLEMENTE, CALIFORNIA, AUTHORIZING THE PURCHASE OF TWO PROGRAMMABLE LOGIC CONTROLLERS AND INSTALLATION MATERIALS FROM ONESOURCE DISTRIBUTORS IN AN AMOUNT NOT TO EXCEED \$122,794, AND FINDING THE PROJECT CATEGORICALLY EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) UNDER SECTION 15302, CLASS 2 REPLACEMENT OR RECONSTRUCTION OF THE STATE CEQA GUIDELINES

WHEREAS, the City of San Clemente operates automated equipment requiring the use of Programmable Logic Controllers (PLCs); and

WHEREAS, the Water Reclamation Plant Headworks PLCs are beyond their useful life and in need of replacement; and

WHEREAS, to maintain compatibility with the City's current the Supervisory Control and Data Acquisition (SCADA) system and for functionality, reliability, and ease of use, certain Allen Bradley components are required to replace the Water Reclamation Plant Headworks PLCs; and

WHEREAS, OneSource Distributors is the only authorized provider for Allen Bradley components in the region and is the lowest bidder for the remaining installation materials; and

WHEREAS, Section 6.17.2 of City Policy Number 201-2-1 (Purchasing Policies & Procedures for Supplies, Materials and Equipment) allows for an exemption from the Informal and Formal Bidding Process for sole source suppliers within the geographic region; and

WHEREAS, after purchasing the PLCs and installation materials, the replacement work can be done by City staff and is in the best interest of the City.

NOW, THEREFORE, the City Council of the City of San Clemente does hereby find, determine and resolve as follows:

Section 1. That the above recitals are true and correct and incorporated herein as findings.

Section 2. That based on substantial evidence in the record as a whole, this project is categorically exempt from the California Environmental Quality Act (CEQA) under Section 15302, Class 2 Replacement or Reconstruction of the State CEQA Guidelines, because it consists of replacement of existing structures and equipment where the new structures will be located on the same site as the structures replaced, and will have

substantially the same purpose and capacity as the structures replaced involving negligible or no expansion of existing or former use, and there is no reasonable possibility that the activity will have a significant direct or foreseeable indirect effect on the environment.

Section 3. That OneSource Distributors is a sole source vendor for Allen Bradley components and the lowest responsive and responsible bidder for the installation materials.

Section 4. That the expenditure for two PLCs for Fiscal Year 2023-24 for a total amount not to exceed \$122,794 is hereby approved.

Section 5. That the purchase of two replacement PLCs and installation materials from OneSource Distributors, as a sole source vendor for Allen Bradley components, and low bidder on other installation materials, based on the fixed price quotes presented to City Council on May 21, 2024 is hereby approved.

Section 6. That the City Manager or his designee is authorized and directed to execute such documents and take such actions as are necessary and proper to complete the purchase approved herein.

Section 7. The City Clerk shall certify to the passage and adoption of this resolution and enter it into the book of original resolutions.

PASSED AND ADOPTED this _____ day of _____, _____.

ATTEST:

City Clerk of the City of
San Clemente, California

Mayor of the City of San
Clemente, California

STATE OF CALIFORNIA)
 COUNTY OF ORANGE) §
 CITY OF SAN CLEMENTE)

I, LAURA CAMPAGNOLO, City Clerk of the City of San Clemente, California, do hereby certify that Resolution No. 24-76 was adopted at a regular meeting of the City Council of the City of San Clemente held on the _____ day of _____, _____, by the following vote:

AYES:

NOES:

ABSENT:

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the City of San Clemente, California, this _____ day of _____, _____.

 CITY CLERK of the City of
 San Clemente, California

Approved as to form:

 Elizabeth Mitchell, City Attorney

Re: Rockwell Automation Authorized Distributors/OneSource Distributors Fullerton

Dear City of San Clemente:

Rockwell Automation extends and enhances its own significant automation capabilities by partnering with a network of authorized distributors in order to ensure we are able to meet our customers technical and logistics requirements. Just a few of the many benefits that customers enjoy working with their local authorized Allen-Bradley distributor include:

- Access to local distributor inventory (including for spares and replacement parts)
- Technical assistance from local distributor product specialists
- A knowledgeable staff that has access to factory training
- Rockwell Automation provided factory support of local distributor activities

This is to confirm that OneSource Distributors Fullerton currently is the only distributor appointed and authorized to sell Allen-Bradley Standard Controls, Drives, PLC/MMI, Rockwell Software products and all services offerings in the geographic area in which your facility in San Clemente is located. As a matter of Company policy, full factory product and sales support is made available only to the local authorized distributor, and it is Rockwell Automation's practice and policy to always promote and recommend the use of that distributor to customers in that geographic area.

Should you have any questions, please do not hesitate to contact OneSource Distributors Fullerton at (714) 685-5340 or our local Rockwell Automation sales office at (714) 938-9000.

Respectfully,

Jason LeJeune
Partner Manager, Distributor
