Subject: Oral Communications for CC mtg 10/15: Inclement Weather Program for San Clemente/ 2024

San Clemente City Council & City leadership.

Inclement Weather Program for San Clemente/ 2024

My ask is that you bring a **Cold Weather Response/ Inclement Weather Plan** to a council meeting for discussion and enlightenment with community weigh in.

1. Have a plan for inclement weather response in San Clemente in 2024
2. Work in partnership with the County and local non-profits and stakeholders to coordinate an inclement weather response.

Inclement weather conditions such as rain, wind, and high/low temperatures have significant and life-safety impacts for vulnerable populations with chronic health and disabling conditions, including those experiencing homelessness.

Provide **temporary emergency services and resources** to people experiencing homelessness during inclement weather in San Clemente

Thank you,

Donna Vidrine/ San Clemente resident
