

CONSTRUCTION NOTICE

Pavement Preservation Program – Crack Filling

As part of the City’s ongoing effort to maintain the quality of our street network, the City of San Clemente has awarded a construction contract to Roy Allan Slurry Seal, Inc. for the City’s Pavement Preservation Crack Filling Project. Crack Filling is a cost-effective treatment that can extend the life of a pavement by reducing the amount of water and other materials from entering cracks.

Construction Dates/ Duration:	Starting in November 2024 (anticipate three weeks to complete entire project, work will be completed within one day on each street) Contractor will post Temporary “NO PARKING” signs before construction
Work Hours & Days:	8:00 A.M. to 5:00 P.M. Monday through Friday, except City holidays.
Notification/ Parking/ Access:	Temporary “NO PARKING” signs, with the date and time of the parking restrictions, will be posted 48 hours in advance of the work. Please observe these notices and do not park your vehicles within the posted work zone during working hours on these dates. No street / driveway will be closed. Vehicles can drive on street as soon as cracks are filled
Trash Pick-up:	Trash pick-up is scheduled on your normal service day. Construction will not impact trash pick-up. Please set your trash bins on the street during the construction period.

Construction is scheduled to minimize inconvenience to you and your community. We appreciate your patience and cooperation while we complete this needed improvement.

If you have any questions or require special accommodations, please send an email to: Engineering@San-Clemente.org.
