### Total Return

The City also monitors the portfolio's total return which is the sum of all investment income plus all changes in the capital value of the portfolio for twelve months. The City uses the Barclays Capital US Agency and Treasury indexes as benchmarks for measuring relative risk and return with full recognition that returns can and will vary from those of the index due to the portfolio's priorities of providing sufficient liquidity and matching maturing investments with known liabilities to meet cash flow projections. This will result in differences from the index. At September 30, 2012, the Barclays Capital US Agency index was 1.97% and Treasury index was a 1.11%. Total twelve month trailing annualized return for the City's portfolio was 0.64%, which includes an interest component and a market value component.

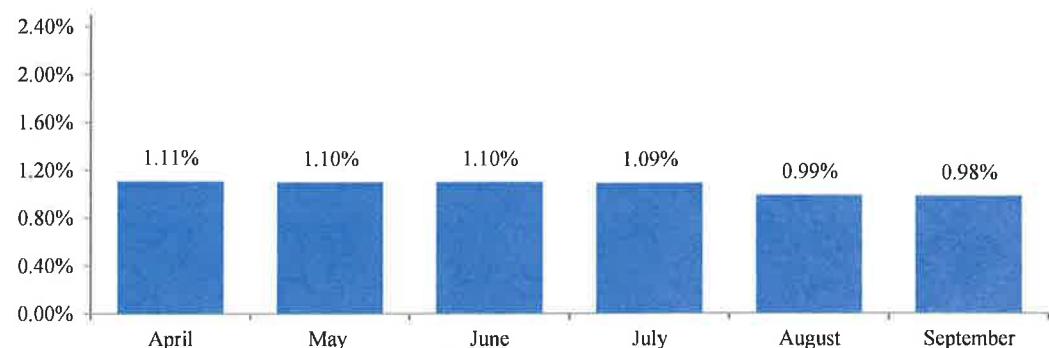

### Total Return

The City's 12 month trailing return is presented for comparison to Barclays Capital's indices. The 36 month trailing return is presented for historical performance measurement purposes.

The **San Clemente Yield** chart outlines the City's yield history for the past 6 months. Current yield equals 0.98%.

*Current Yield:* The annual rate of return that an investor purchasing a security at market value would realize based on the interest payments received.

**Monthly Cash Flow - Receipts and Disbursements**  
**FY 2013**

#### **Summary of Monthly Activity**

The net cash outflow for the month of September is \$2.3 million. The City has \$41.0 million invested in LAIF which is available to address any significant cash outflow requirements during the month.

#### **Receipts:**

Property taxes are received in December, January, April and May and are the high receipt months. Other than these months, receipts have relatively small fluctuations. September's projected receipts were \$5.4 million and actual receipts were \$5.3 million.

#### **Disbursements:**

Cash outflow for September was \$7.6 million. The amount of disbursements vary based on the number of pay periods in a month, the number of accounts payable dates in a month and the activity submitted from other departments which includes capital project activity. September's projected disbursements were \$8.6 million, actual disbursements were \$7.6 million, which was \$1.0 million below projection. This difference is due to a purchased water payment and a police contract payment paid in October.
